

Head Impulse-Nystagmus-Test of Skew.

HINTS to INFARCT

- HI**
 - *horizontal Head Impulse test*
 - *Impulse Normal*
- N**
 - **Nystagmus**
 - **Fast-phase Alternating**
- TS**
 - **Test of Skew**
 - **Refixation in (alternate) Cover Test.**

Absence of ALL of these features (IN-FARCT) essentially rules out a central etiology
